

NOTICE

OWING TO KENNETH BOOTH, THE CARRIER OF THE BONANZA, HAVING BEEN SUMMONED TO SACRAMENTO ON ACCOUNT OF THE ILLNESS OF HIS MOTHER, PATRONS NOT RECEIVING THEIR PAPERS THIS MORNING WILL CONFER A FAVOR BY PHONING TO THE OFFICE, AND THEIR PAPER WILL BE SENT TO THEM.

WILL WEAR HIS SUNDAY CLOTHES

O. H. FITZGERALD IS AWARDED CLOTHING THAT HAD BEEN STOLEN.

O. H. Fitzgerald will appear on the streets of Tonopah today in his own clothes. The clothes were stolen about a month ago by his roommate, P. W. Bennett. The latter was arrested and the clothing recovered. That is, the police recovered the clothes, not Fitzgerald. The trial of Bennett took place only yesterday, and the clothing has been held all this time for evidence.

Bennett was found guilty by a jury last night. District Attorney McCarran pushed the case so that Mr. Fitzgerald might have his Sunday clothes this morning. The jury recommended Bennett to the mercy of the court, and the court made an order that Mr. Fitzgerald have his effects returned to him, so that it will not be necessary for Mr. Fitzgerald to bring suit to recover his clothing.

PERSONAL MENTION

Bryce Turner, general manager of the Montgomery-Shoshone mine was a passenger on the Beatty train, which left here at 12:45 yesterday afternoon. He says that the mine and the mill never looked better.

Chauncey L. Booth and Kenneth Booth will leave this morning, having been summoned to Sacramento by the illness of their mother, Mrs. Whitehouse, who is not expected to live.

GOLDFIELD SALOON WAS HELD UP

GOLDFIELD, Dec. 7.—The Montana saloon on Main street was held up about 11:30 o'clock last night by four masked men, two guarding the outside while the remaining pair rifled the registered and relieved several loungers about the place of what money they possessed. About \$108 was secured by the hold-up men.

Nick Bilick, one of the proprietors of the saloon, was on duty behind the bar when the four men appeared. He looked into two big revolvers held upon him by the robbers and stood aside while one of them went through the register and the other searched the pockets of several men who at the time happened to be sitting about the saloon.

From the cash drawer \$90 was taken and from the patrons \$18 was stolen.

NEVADA HILLS IS IN VERY RICH ORE

Developments in the Nevada Hills during the past week have been of a most substantial character, and go to show that the mine will make good all that has been claimed for it. In the lower levels Manager Webber has lately unearthed two glory holes that disclosed rock as rich as any that has been taken from the property.

In tunnel No. 5, near the point where the nine-foot vein was encountered and which has been left intact for months to call forth admiration from all who have seen it, some new exploration was started the first of the week. The result of the first few shots was remarkable; the same black and green "glom" that characterized the surface strike was opened in large quantities. This kind of rock carries large values, running up in the thousands, and even a small lot represents a fortune.

Many strikes which are made in this mine are never mentioned, because those at the property have grown accustomed to them. The last one, however, was of such importance that it even drew comment from Manager Webber, who has been in close contact with the treasure vaults for nearly two years.

Again in tunnel No. 8 some excellent ore has been exposed. While following a streak on the hanging wall a three-foot body of tale was brought in that carried some wonderful values. The rock is very soft and is filled with blotches of horn silver and sprinkled with free gold. The developments on this level and those above have blocked out enormous tonnages of all character of ores. Enough high grade is now in sight to insure the payment of the quarterly dividend with very little time and effort.

John T. Hodson, who is largely interested in the Nevada Hills, says the property is in a condition to continue its present output of 50 tons a day and that it is the intention to keep on with the regular quarterly dividends. W. H. Clark of Salt Lake is one of the large stockholders in the company.—Deseret News.

WILL ENFORCE THE SUNDAY LAW

KANSAS CITY, Dec. 7.—Drastic measures were taken here today to enforce the Sunday closing law as a result of the recent campaign begun by Judge Wm. H. Wallace of the criminal court. The county grand jury indicted 228 traveling actors, actresses, employees of local theaters and charged them with violating the Missouri law forbidding labor on Sunday. Of this number forty-one were arrested and gave bond in the sum of \$200 each. While others evaded the officers and left the city without being apprehended.

ANXIOUS ABOUT MISSING PRINTER

H. L. Jones, a printer who had a position in the job department of the Evening Gazette, is missing. He reported for work Wednesday of last week and stated that he would begin the following Friday morning. Since then he has not been seen and his union card and personal effects are still in Reno.

Has Jones been murdered? Has he left Reno to avoid the vengeance of an alleged wronged husband? Or, has he just decided to seek other employment? Three questions for those who are investigating the case and are trying to have answered. Thus far they have not met with success.

Soon after Jones arrived in Reno, a stranger was in town making inquiries for Jones, a printer, who he claimed came here from Tonopah.

"He ran away from Tonopah with my wife and he is now in Reno," said the stranger. "If I find him I will settle the score with him."

Shortly afterward Jones entered the office. He was told of what the stranger said, but did not seem worried.

"Oh, that fellow is crazy. I haven't got his wife, and don't know anything about the matter," said Jones. With that he left saying he would be around on time for work the following Friday morning. That was the last seen either of him or the stranger.

Jones is a union printer and came here from Tonopah. His card is still deposited with the Reno union and he cannot return to work unless he has it in his possession. This leads to the belief that perhaps he has met with an accident.—State Journal.

HIRED ANOTHER TO DO MURDER

NEW YORK, Dec. 7.—Pietro Giannone is on trial in the court of general sessions, charged with attempted murder in the first degree. The principal witness against him is Bruno Cardea, who says that Giannone hired him to stab and kill Luigi Favata, with whose wife Giannone said he was in love.

Cardea has served a few months of a five-year sentence for the crime. During his own trial he consistently denied that he had done the stabbing, but after he was sent to Sing Sing he confessed and expressed a desire to see Giannone punished.

He testified that Giannone gave him a long knife, which he said was poisoned, and told him where he could find Favata. He promised him, Cardea says, \$1300 for the work, and said that if he was arrested, he would be at once bailed out and could escape to Italy.

He stabbed Favata, but Giannone deserted him after his arrest. The prosecuting attorney says he will show that Giannone tried to induce Mrs. Favata to kill her husband, giving her poison for the purpose, saying that with Favata out of the way they could marry and go back to Italy, where they could live comfortably on the proceeds of Favata's property.

MONNETTE PLACES BLAME OF TROUBLE

LOS ANGELES, Dec. 7.—M. J. Monnette, president of the Los Angeles-Nevada mining exchange, and one of the big operators at Goldfield, in an interview today, laid the whole blame for the present situation in Goldfield upon Wm. D. Haywood. Mr. Monnette is quoted as follows: "All of the present trouble at Goldfield is due to the activity of Wm. D. Haywood, secretary-treasurer of the Western Federation of Miners. It was due solely to his influence that the miners' union refused to accept checks on the Goldfield banks in payment of their wages some time ago, and at a meeting of the miners urged them to refuse these checks. I am satisfied that 75 per cent of the members of the union were not in sympathy with him in this move, but they seem to be thoroughly under the control of a few leaders that they are afraid to take independent action. Many of these men are anxious to return to work, and in my opinion there will either be a split in the union at Goldfield, or the open shop rule will prevail in all of the large mines there. The mine owners' association is determined that it will no longer submit to the arbitrary dictation of a few union agitators."

STANDING ROOM ONLY AT BUTLER

Tonight is the last night at the Butler of the "Red Spectre" and the great "Train Robbery," and on this occasion all the effects will be added to the motion pictures, giving to them the force and snap of real life. We will hear the whistle of the train, the chew, chew of the cars, the noise of the explosion, the crack of the shots, and everything else that will tend to make the scenes most realistic. The same or rather similar effects will be observed in the "Red Spectre." There will be a matinee this afternoon at 3 o'clock, and a new set of pictures will be put on on Monday night, the effects being used always hereafter.

On Sunday next at 2:30 the benefit for Fred Blackford will take place.

USUAL REPORTS FROM RAWHIDE

Budd and Will Williams went to Rawhide last Thursday and remained until Sunday morning. They state that business seems to be keeping up about the same, though there are so many people in business that it is pretty well divided up. The weather is warmer there than here, as the town being on the southern slope gets the full benefit of the sunshine.

They bring the usual reports of leasers taking out gold everywhere. W. B. Wyrick of Fallon has a lease in Rawhide and has already taken out several sacks of high-grade. A specimen from his lease, showing free gold, is on exhibition in the show case at the Rees pharmacy.

Paul Adams and Joe Beaupere are doing well on their lease. Thomas Kearns purchased from the Grutt brothers for \$25,000 cash their lease on the Balloon group of claims.

Budd Williams, Hank Fister and Harry Campbell have leased half of one of their claims, half a mile from Rawhide, and the men commenced work the past week on the croppings and are following the ledge down.

Williams and Fister also have a group of claims between three and four miles from Rawhide on which they are doing considerable work this winter. They got big assays from this property. — Churchill Eagle.

GO TO RAWHIDE.

A party composed of W. E. Casson, John Casson, F. W. Techow and Robert Roundtree departed last evening for Rawhide where they intend to locate. Rawhide is one of the promising districts and these gentlemen are interested in leases which they will develop personally. H. R. Mighels, who is also interested in the Rawhide properties, will leave for that place in a few days.—Carson News.
